Finest Furniture Finishes

Solid wood cabinet finishes are processed thoroughly. Excellent craftsmanship details are as follows:

1. The finest solid wood is sanded until smooth and vacuumed.
2. An equalizer stain is applied to balance the base color of the wood.
3. A toner is applied to establish color uniformity.
4. A deep penetrating stain is applied to reveal the hidden beauty of the natural grain.
5. All stained surfaces are hand-rubbed and wiped of excess stain and then slowly air-dried.
6. A wood sealer is applied, penetrating all exposed wood surfaces for uniform protection.
7. All surfaces are hand-sanded, providing a smooth, consistent surface.
8. A glaze is applied by hand (if applicable).
9. A color consistency examination is performed with additional touch-ups, if needed.
10. A final protective top coat is applied, maximizing resistance to scuffing, moisture, fading and most household chemicals.

Notes:
NOT Actual Product.
Image For Reference Only.

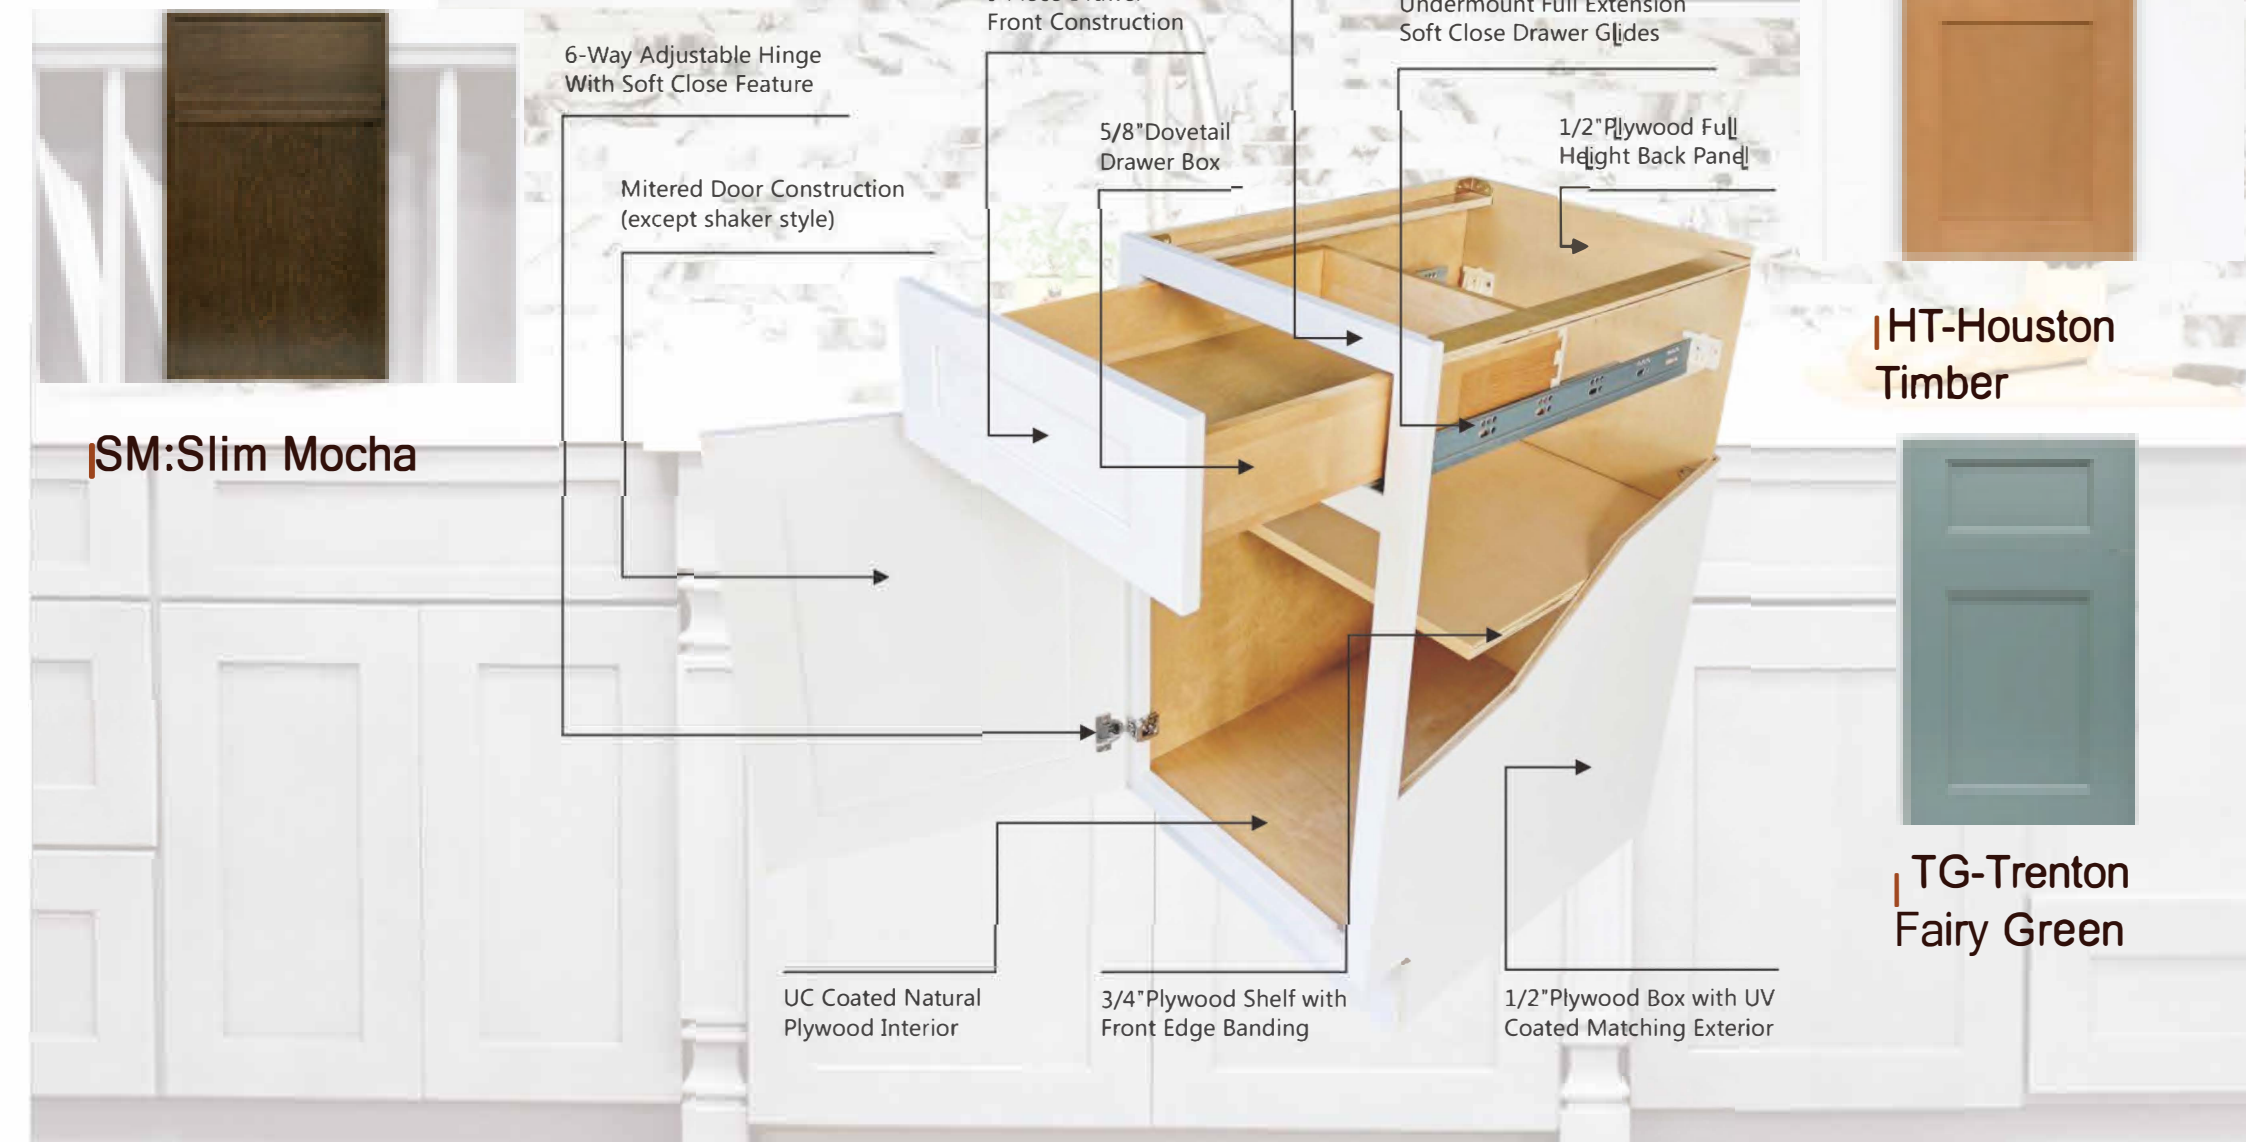

Specifications

- Solid wood door frames are mortise and tenon.
- 6-way adjustable concealed hinge with build-in soft close 110° opening capability.
- 5/8" solid birch dovetail drawer with a 3/8" plywood bottom with full extension under mount soft slides.
